Bill 452 should be defeated. Taxpayers were told from the outset that now taxpayer dollars would be needed to fund this project. Somehow, I new it would come to this. Always does in CT. Politicians tell lies, get what they want and then do what they intended to do all along. Hartford got themselves into this mess. Let them figure a way out. Why do I, in Plainville, have to subsidize a baseball stadium in Hartford that I will, probably, never go to.
