Our state tax dollars should not fund a stadium that only certain interests group wanted. The team had a perfectly good stadium in New Britain and made a choice to leave. This wasn't the choice of the majority of people in the state and it sure should not be the obligation of those in this state to fund that choice, misguided or not. I shudder to think that our hospitals and citizens are being asked to shoulder the lack of money in this state while this stadium gets a free ride. Stop sinking money we don't have into this stadium or ask the owners of the team who wanted to move to fund it, but don't use my tax dollars for this.
