We were told that State taxpayers would not have to pay for this move.

I am therefore AGAINST this tax.

If you did not have the money you should never have moved this team in the first place.

Families in CT are already taxed to death.

If you do this I guarantee you will not remain in office. We are all angry at the extravagant spending in this State i.e. \$100 BILLION for road projects etc. It never ends...

This is the last straw.
