Subject: Support SB 34

I am urging that you Support Raised Bill Number 34 during today's Insurance and Real Estate Committee hearing. As a chronic pain patient, I see the importance of protecting patients with chronic diseases whose insurance company has denied coverage for a prescribed treatment or medication.

Senate Bill 34 establishes procedures for the dispensation of and coverage for a prescribed drug for a chronic disease during certain adverse determination reviews. It will also decrease the time frame for urgent care adverse determination review requests from 72 hours to 48 hours.

Thank you,
