**Milford Probate Prisoner 11-0009**

Re: Raised Bills: HB 5052, 5621, 5345      AGAINST

March 14, 2016

I am writing to again testify against these bills as I see that they are a continuation of many similar such bills that continue to extend and expand the enablement and utilization of the powers of the various "interested parties" in their vested interest stripping their targeted prey here in the state of Corrupticut for purpose of stripping these targets of their Civil Rights and then their assets for purpose of UNJUST SELF-ENRICHMENT.

Bill after bill is being passed by the various committees in our legislature that enable the "irredeemably corrupt" Connecticut Probate Court / ElderLaw BUSINESS INDUSTRY, with Corrupticut being ranked "the most corrupt and predatory Probate/ElderLaw RACKET of all 50 states," with Corrupticut being ranked as dead last as state in which to retire, Corrupticut ranked tops in state from which its citizens are fleeing to relocate into other states, Corrupticut ranked as tops as being most expensive state to die with highest probate looting of estates of all 50 states, etc.

Again and again bills come forward that further enable the Probate and ElderLaw RACKETEERS, the (extremely misnomered) DSS Protective Services for the Elderly, the GAL Racket, the Municipal Predation Hoarding and Blight property theft Racketeers , etc to all gain even more power via their pals up in the legislature continuing in the passing of more and more self-serving bills that perpetuate and extend the horrific profiteering that is taking place in unbridled, unconscionable, unconstitutional stripping of Civil Rights and Assets from the targets who get caught in the crosshairs of these predators, they being the Probate courts, the elder law attorneys, the DSS employees, the municipalities' property stealing rackets, etc.

Even as there is massive building of resistance campaigns growing around the country that are fighting the PROBATE/FAMILY COURT HUMAN TRAFFICKING RACKETEERING INDUSTRY, even as this elder financial abuse via the probate business industry is ranked as "THE NUMBER ONE CRIME OF THE 21<sup>ST</sup> CENTURY" as the combined assets of the Greatest Generation/Depression Era Elders and now their elderly Baby Boomer children are available as the greatest source of available plump and ripe fruit for financial rape and pillage, you folks in our Corrupticut's legislature are resolutely continuing along the opposite path and are continuing to further pass bills that further enable this theft of assets from the qualifying prey.

Shame on You.
