Subject: SB 18

I urge full support for HB 18, An Act Concerning a Second Chance Society.

For too long, we have been incarcerating young people (men) for minor crimes. We have learned, over the years, that full cognitive maturity takes longer than we suspected, so to handicap our youth with criminal records or unjust bail requirements is truly unfair.

In disclosure, I have no personal connection to anyone affected by the current or proposed legislation. I have firm religious commitment, as a Unitarian Universalist, to fair and compassionate treatment for all.

Please support HB 18.
