I would like to voice my support for Raised Bill No. 348, which clarifies that protection against adverse action extends to employees who serve as either state or federal jurors. As a United States District Judge, I can attest that this clarification would be a welcome addition to the efforts of all courts in Connecticut to ensure that our citizens are allowed to perform their important civic duties as jurors without fear of losing their jobs or suffering other harms with respect to their employment.

Thank you for your consideration.
