RE: HB 5300 AN ACT CONCERNING THE USE OF GENETICALLY MODIFIED ORGANISMS IN CHILDREN'S FOOD.

Dear Committee on Children:

As a mother there is nothing more important than the safety of my children. And food is essential to this especially when it comes to genetically engineered ingredients. Food should be labeled if there are genetically engineered ingredients so I can make the choice for my family. QR codes on packages are not good enough. A label stating the ingredients; clear and simple. We need transparency on food labels.

Thank you for your consideration on this important matter.

Sincerely,

Ann Reynolds
