

Please do anything that can be done to make these markers for our professional antiques dealer acceptable to our Town Board of Selectmen. These flags and/or markers are visually appealing and in keeping with our town's architecture and reputation for pre-eminence in the antiques business. Our streets and road are presently littered with makeshift signage for every business, tag sale, or local event. It is ugly and laughable to tourists, and detracts from the historical character of our town. Our Board of Selectmen permits this horrible mess in our town, but denies our antiques dealers the ability to mark the State authorized Connecticut Antiques Trail.

Thank you.
