

I wanted you to know that I am NOT in favor of any leasing of the reservoir to Tilcon. New Britain has a great water supply. The public welfare is at stake, for all the residents of New Britain now and in the future. Water is life. Please do not vote for this until a lot more research is done. This is very important to the people of New Britain. This seems like this profit over people. The reservoir is one of New Britain's valuable resources. This sounds a lot like when Cosco wanted to build on the Stanley golf course or when the Art museum wanted to expand in Walnut Hill Park. DO NOT let TILCON use OUR water supply for PROFIT!!! Also why is the hearing for the public at 11:am on Monday when most people are working? Thank you for your service to the people of New Britain. Sincerely Susan Favreau 25 Emmons Place
