Subject: Firing Range Public Comment

Dear Legislators,

We are unable to attend Thursday's hearing on the State Police Firing Range. Therefore, we are sending our objection to the siting of this project in East Windsor, CT. Our reasons are as follows:

- 1) adverse affect on property values already documented
- 2) noise level and lack of planned baffles to mitigate noise
- 3) incompatible with surrounding area including neighborhoods, residences, schools, churches, and cemeteries
- 4) siting process vague and inability to have questions answered
- 5) threat to quality of life both human and wildlife We support both legislative bills being discussed today. We want East Windsor removed from consideration for the firing range.

Sincerely,

Scott C. & Barbara L. Novak

184 Rye Street

Broad Brook, CT 06016

Our residence is less than 1/2 mile from the proposed site.
