

## MEDICAL MARIJUANA PROGRAM TIMELINE

By: James Orlando, Senior Legislative Attorney

### ISSUE

This report summarizes significant steps in the implementation of Connecticut's medical marijuana program and legislative changes since the program was enacted.

The program is administered by the Department of Consumer Protection (DCP). The program is available to patients with certain debilitating medical conditions. Patients must register with DCP and meet other requirements.

The legislature enacted the program in 2012. It required DCP to adopt implementing regulations; DCP did so in 2013.

According to DCP, as of June 26, 2016, there were 11,302 registered patients.

Table 1 below shows a timeline of the program's implementation and legislative changes since enactment. More information on the program is available on DCP's [website](#).

**Table 1: Connecticut Medical Marijuana Program, Overview of Implementation and Changes Since Enactment**

<b>Month/ Year</b>	<b>Event</b>
May 2012	<p>Legislation Establishes the Program</p> <ul style="list-style-type: none"> <li>• The legislature enacts Connecticut’s medical marijuana program through <a href="#">PA 12-55</a>. Provisions allowing patient use took effect October 1, 2012; certain provisions took effect upon passage.</li> <li>• The act allows physicians to certify adult patients’ use of marijuana for certain debilitating medical conditions.</li> <li>• Among various other things, the act: <ul style="list-style-type: none"> <li>○ requires patients and their primary caregivers to register with DCP;</li> <li>○ creates licensing requirements for producers to grow marijuana and for pharmacists (dispensaries) to dispense it;</li> <li>○ provides legal protections, subject to certain exceptions and conditions, for patients, their caregivers or physicians, dispensaries, and producers for specified actions relating to palliative marijuana use; and</li> <li>○ requires the DCP commissioner to establish a board of physicians who are knowledgeable about palliative marijuana use.</li> </ul> </li> <li>• Many provisions require implementing regulations.</li> </ul>
October 2012	DCP Begins Issuing Temporary Registration Certificates Before Regulations Take Effect
August 2013	<p>Implementing Regulations Adopted, Taking Effect in September</p> <ul style="list-style-type: none"> <li>• DCP issued a draft of proposed regulations in early 2013; the Regulation Review Committee approved regulations in August (<a href="#">Conn. Agency Regs. §§ 21a-408-1 to 21a-408-70</a>)</li> <li>• The regulations address several topics, such as: <ul style="list-style-type: none"> <li>○ physician recordkeeping and reporting requirements;</li> <li>○ the process for adding to the list of qualifying debilitating conditions;</li> <li>○ the selection process for dispensary facilities and producers;</li> <li>○ licensing procedures, fees, and disciplinary action;</li> <li>○ marketing and advertising restrictions;</li> <li>○ laboratory testing;</li> <li>○ packaging and labeling; and</li> <li>○ security requirements for dispensary facilities and producers.</li> </ul> </li> </ul>
September 2013	DCP Issues Requests for Application (RFA) for Dispensary and Producer Licenses
January 2014	DCP Approves Four Applicants for Producer Licenses
April 2014	DCP Approves Six Applicants for Dispensary Facility Licenses
September 2014	Dispensary Facilities Begin Sales to Patients

Table 1 (Continued)

<b>Month/ Year</b>	<b>Event</b>
November 2014	<p>Board of Physicians Holds its First Public Hearing on Petitions to Add to List of Qualifying Conditions</p> <ul style="list-style-type: none"> <li>• The board held two additional hearings in 2015</li> </ul>
June 2015	<p>Legislation Eliminates Separate Palliative Marijuana Administration Account</p> <ul style="list-style-type: none"> <li>• Prior law credited all fees DCP collected under its regulation of medical marijuana to this account. <a href="#">PA 15-244</a> (§§ 99-102 &amp; 221) eliminated the account and requires the fees to be credited to the General Fund.</li> </ul>
June 2015	<p>DCP Issues an RFA for Additional Dispensary Facilities</p>
January 2016	<p>DCP Approves Three Additional Applicants for Dispensary Facility Licenses</p>
February 2016	<p>Regulations Adopted Adding to List of Qualifying Debilitating Conditions, Taking Effect in March</p> <ul style="list-style-type: none"> <li>• In 2015, the DCP commissioner announced that the department would draft regulations adding seven conditions to the list of qualifying conditions: six recommended by the board of physicians and a seventh (Fabry disease) that received a tie vote by the board.</li> <li>• The Regulation Review Committee approved the regulations, except for Fabry disease. Thus, the regulations added the following six conditions: <ul style="list-style-type: none"> <li>○ sickle cell disease;</li> <li>○ post laminectomy syndrome with chronic radiculopathy (recurring back pain after surgery);</li> <li>○ severe psoriasis and psoriatic arthritis;</li> <li>○ amyotrophic lateral sclerosis (ALS, also known as Lou Gehrig's disease);</li> <li>○ ulcerative colitis; and</li> <li>○ complex regional pain syndrome.</li> </ul> </li> </ul>
May 2016	<p>Legislation Expands the Program to Minors and Makes Several Other Changes</p> <ul style="list-style-type: none"> <li>• The legislature enacts <a href="#">PA 16-23</a>, effective October 1, 2016.</li> <li>• Among various other things, the act <ul style="list-style-type: none"> <li>○ allows minors to be qualifying patients, subject to certain additional requirements and limitations beyond those that apply for adults;</li> <li>○ adds to the list of qualifying debilitating conditions for adults;</li> <li>○ requires patients to select a dispensary from which they will purchase marijuana;</li> <li>○ specifically allows nurses to administer marijuana in licensed health care facilities; and</li> <li>○ allows the DCP commissioner to approve medical marijuana research programs.</li> </ul> </li> <li>• Another 2016 act (<a href="#">PA 16-39</a>) allows advanced practice registered nurses, rather than just physicians, to certify patients for medical marijuana use, except for glaucoma (§§ 47-51, effective January 1, 2017).</li> </ul>
