Subject: Infavor of DMV Privatization

State Representatives, State Senators, Governor Malloy & DMV Commissioner:

I am very strongly in favor and agree that the State of Conn. DMV should privatize the services they provide to other sources/vendors such as AAA. Please afford them as many duties as possible.

I have used the AAA office in Milford, CT several times over the last several years to avoid the extended wait times in your regular offices.

I would expect to see a reduction in staffing and spending by the DMV when these plans are put in place.

Please note that I spent many hours and time in your Bridgeport Office from April to June attaining ID's for special needs persons and those who were never able to drive and needed the services to move into community based housing. The Bridgeport DMV staff was very pleasant and cooperative and although the wait times were long and the task was daunting I and my clients were treated very respectfully.
