I am writing on behalf of House Bill 5041. The cost of government is soaring here in Connecticut and you have an opportunity to cut costs associated with the DMV by allowing private contractors to supply more services to the public, thereby saving money and alleviating the frustration so many of us feel when we have to do any type of business with the DMV. This is your chance to show the people of Connecticut that you are serious about cutting costs and trying to bring return Connecticut to the state it once was.

Sincerely,
