Testimony

I agree something needs to be done. This was talked about several years ago. I would like to know what the cost will be to this proposal and I think that the company be back charged for the cost that the tax payers will have to pay do to the issues associated to the 30 plus million program which was to improve the DMV and reduce cost. Also the people that reviewed and approved that 30 million contract be terminated for their poor decision. (It failed in other states)
Another option I think will work have all municipalities process license renewals and registrations. They have all the tax records. If they owe money to the town they either pay or there renewals will not be renewed.
