Subject: Testimony for H.B. 5041

I'm writing to indicate my support for privatizing Dept. of Motor Vehicle services as outlined in H.B. 5041. The long waiting times, poor workflow in most of the state's DMV offices and the spotty implementation of service delivery necessitates giving private sector contractors an opportunity to address these issues. Contracting can be accomplished to hold the line on expenses and render better service.

Thank you for all that you do for the State of Connecticut.
