

CT Education Committee

- Please take note that I support Senate Bill 912 that expands the degrees allowable to meet early childhood staff qualifications to regionally accredited institutions. Note the Alliance supports allowing BA's in ECE (and related fields) from accredited institutions outside of CT but not going back to BA's in unrelated fields plus 12 ECE credits. &
- House Bill 7155 - Would require the OEC to create an early childhood educator compensation schedule based on degree, years of service and other factors, and to review current incentives, and analyze the costs to achieve the recommended compensation.
