

**HB 6329 AN ACT CONCERNING HYDRAULIC FRACTURING WASTE IN CONNECTICUT**

Christine Ventura

154 Country Club Road  
Dayville, CT 06241

I am writing to express my support for the ban of all fracking waste disposal within the state of CT. We do not possess the technology to remove contaminants from these wastes, should they be released into the environment. The toxins and radiation in these wastes pose a special threat to our water supply. Should aquifers be contaminated, we will suffer the consequences for generations to come.
