

March 11, 2017

To the members of the environment committee of the CT state legislature:

I fully support HB 6329, which proposes to permanently ban the disposal, storage and handling of fracking waste in the state of Connecticut. We should follow the lead of our neighbors, Massachusetts and Vermont, in recognizing the dangers of radioactive fracking waste. The state must conserve our water and water quality for the safety of its residents and businesses.

Thank you for the opportunity to comment on this bill.

Barbara Bettigole
