

Dear Senators Kennedy, Miner and Representative Demicco,

I support this bill whose purpose is to permanently prohibit the storage, disposal, handling and use of hydraulic fracturing.

Hydraulic fracturing, or fracking as it is commonly known, uses carcinogenic chemicals to break up shale and collects radioactive substances from under the earth creating a slurry of waste products that pollute rivers, ground water and makes people sick.

We can protect our wonderful natural resources in Connecticut, increase our ability to attract clean industries and increase the development of renewable energy sources all of which will enhance our state by permanently prohibiting the storage, disposal, handling and use of hydraulic fracturing.

Sincerely,  
Lynne Bonnett  
675 Townsend Ave.  
New Haven CT
