

HB6329 AN ACT CONCERNING HYDRAULIC FRACTURING IN CT

Carol Brooks
249 Elm Street
Windsor Locks, CT 06096

To whom it may concern;

I am among MANY residents of CT who are VERY concerned about hydraulic fracking waste, in any form coming into our state. I support a complete and permanent ban as described in HB 6329. I do not want to rely on DEEP I want this committee to think responsibly and act as your constituents direct you, please....to pass HB 6329 and to pass a permanent and all encompassing ban on fracking waste, storage, disposal, and hydraulic fracking in CT.

I urge you to act quickly to protect the residents of ALL towns in our state, as health risks are high especially if there is a leak, spill or any type of contamination.....it doesn't recognize town borders!

Please keep us safe and pass HB6329
