

Proposed Bill 6329, AN ACT CONCERNING HYDRAULIC FRACTURING WASTE IN CONNECTICUT.

Honorable Environment Committee Members,

My name is LaDonnah Cardin and I reside at 300 Bitgood Road, in Griswold, Connecticut. I support a permanent ban on hydraulic fracturing waste for gas and, also ask that the language to be amended to include all waste from both oil & gas drilling and extraction. The toxins and radioactivity in these wastes cause multiple types of cancer, birth defects, developmental problems, neurological and multiple organ damage. Spills, leaks, and runoff have permanently poisoned aquifers, surface waters, and property in other states. A permanent ban is needed, since Regulations would never be able to stop accidents and negligence. We cannot risk the chance of spills and leaks contaminating our soil and water.

Thank you for your time,
LaDonnah Cardin
