

Good Morning,

I am writing to offer my support H.B. No. 7247 (RAISED) AN ACT ESTABLISHING A CARBON PRICE FOR FOSSIL FUELS SOLD IN CONNECTICUT

and

H.B. No. 6329 (COMM) AN ACT CONCERNING HYDRAULIC FRACTURING WASTE IN CONNECTICUT

The environment is under duress. If our national administration continues to remove protections, I ask that our State responds through environmental leadership. I have young children; it is incredible to think of how greatly their lives will be impacted if we do not take action to protect our planet NOW. It is terrifying to think that climate science is being ignored and ignorance is being glorified. **This should NOT be partisan... it should be important to anyone who cares about any of us that will be here beyond 2030.**

Please, please, please support these bills to do what you can to protect what we have left.

Thank you,
Sarah Farrell
