

Please pass the proposed House bill 6329 for a state-wide ban on fracking wastes.

You must ban hydraulic fracturing and all oil and gas drilling and extractions wastes. The toxins and radioactivity in these wastes cause multiple types of cancer, birth defects, developmental problems, neurological and multiple organ damage. With the state deficit and town budget problems, we cannot risk exposing ourselves to remediation costs. Spills and leaks have permanently poisoned aquifers and run-off into surface waters and property in other states. A permanent ban is needed, as regulations won't stop spills and leaks.
