

To Chairman Senator Kennedy, Senator Miner, Representative Demicco, and
Members of the Environment Committee,
Testimony for HB6329 An Act Concerning Hydraulic Fracturing in CT,
Please vote in favor of a permanent statewide ban on fracking waste in CT. We
should not be inviting these toxic materials into our backyards. The long
term negative impacts on public health, the environment, and the climate far
outweigh any shortsighted financial gains.
Thank you,
John Kenny
