

Connecticut General Assembly-Environment Committee public hearing March 13th, 2017 House bill No. 6329 an act concerning Fracturing Waste In Connecticut.

To Chairs Senator Kennedy, Senator Miner, Representative Demicco, and members of the committee. Thank you for considering my testimony as a Windham CT resident. A Connecticut town that, due to our level of poverty, is often targeted by polluting industries. I support this bill and urge a strengthening of the language. We must ban hydraulic fracturing waste for gas and for all oil and gas drilling and extractions waste. We must stop the oil and gas industry from using semantics to find loopholes in your legislation. Thank you for drafting this IMPORTANT bill and for doing everything in your power to make it a strong bill that protects all Connecticut resident's. After passing out of committee, please work in your caucuses to ensure it's passage.

Sincerely, Ms. Margaret A. Macha
