Re: Committee Bill No. 6329 - an act concerning hydraulic fracturing waste in Connecticut

Dear Members of the Committee on Environment:

This letter serves to provide support from the Town of Bloomfield, Town Council, community of concerned citizens, and myself regarding the ban on fracking waste in Connecticut.

As we speak, a draft ordinance is under review by Town Attorney Marc Needelman regarding the same.

Representative David Baram leads the charge in this House Bill and we are in full support of all his efforts to prevent hydraulic fracturing waste from entering any environment be it air, water, or land.

Sincerely,

Philip K. Schenck, Jr.
Town Manager
