

Dear constituent,

Please support SB 630, to strengthen and extend Connecticut's Renewable Portfolio Standard (RPS), which requires utilities to get a gradually-increasing percentage of energy from renewable sources, beyond 2020.

Please oppose SB 106, which would undercut our rapidly growing solar and wind industries by potentially allowing nuclear power to co-opt their incentives.

Global warming isn't going to disappear in 2020. We need to strengthen requirements for more renewables. If anything, do it to strengthen Connecticut's economy.

Yours truly,
Suzanne Besaw
