

I am a strong supporter of clean energy. I am writing to ask you to do the following:

Please support SB 630, to strengthen and extend Connecticut's Renewable Portfolio Standard (RPS), which requires utilities to get a gradually-increasing percentage of energy from renewable sources, beyond 2020.

Please oppose SB 106, which would undercut our rapidly growing solar and wind industries by potentially allowing nuclear power to co-opt their incentives.

South Windsor knows the downsides of nuclear power and the need for a clean energy future. Thanks for listening.

Sincerely,

Kathryn S. Hale, J.D., LL.M
