

Dear Members of the Energy and Technology Committee,

I'm writing to ask you to please support SB 630, to strengthen and extend Connecticut's Renewable Portfolio Standard, and to please oppose SB 106. We the families of Connecticut are counting on you to represent us by doing your part to combat global warming. We want you to strengthen requirements for more renewables because it is critical to the health of the people of Connecticut, not to mention of our economy! Thank you so much for your time.

Most sincerely,

Kim Shirkhani
