

Yes I agree seniors should not be subject to tax on their social security. They receive so little money as it is. Why don't you make it mandatory that Congress, President etc everyone gets social security and not the big \$200,000 a yer they get for retirement, then maybe people would get enough social security to live on. You want to wage minimum wage to \$15 yet most seniors don't even got \$8 an hour some only receive \$750. How can you live on that for a month?
