

I urge you to support and vote for SB 9 and HB 5434. HB 5205, HB 5435, and HB 5736 on the same subject deserve support.

I urge you to oppose and vote against SJ 11, SB 108 and SB 133.

Connecticut voters deserve to have their votes count as much as do the votes of people in swing states. If the national popular vote were to decide elections, our votes would count as much as any other citizens and candidates would have to consider Connecticut issues in crafting campaign platforms and would have to pay more attention to Connecticut during campaigns and in their actions as president.
