

To the Connecticut General Assembly,

This is my written testimony concerning HB5434 and assorted other Bills that pertain to the same issue. I am in full support of HB5434, that Connecticut join the Popular Vote Interstate Compact, which would allow the Presidential candidate with the most popular votes to receive the electoral votes of all of the states who have joined the compact. In our current system, Connecticut votes are essentially discounted, as are our concerns and needs. The fact that the current president lost the popular vote by approximately 3 million votes is staggering. Please vote in support of this Bill so that Connecticut joins the compact, restoring our votes to their intended importance.

Sincerely,

Katharine Clemens-O'Shea
