

Dear Committee Members,

I am writing in support of bill 5434. This bill will institute a fairer representation of America's voters for the presidency. It seems to me an issue of the most fundamental concern to our democracy, particularly when faith in it is becoming eroded by gerrymandering, false claims of rampant voter fraud, and foreign hacking of our elections.

Please pass this bill and help restore the principle that the person with the most votes should be the winner of an election.

Sincerely,

Catherine Lutz
