

To Our Esteemed Elected Officials,

I want to voice my support of Bill HB 6575 which blocks a candidate from being on a CT ballot if he/she has not turned over federal/state tax returns for the past 5 years. I believe that transparency with these financial records is the only way to combat untruths and determine whether candidates have conflicts of interest that could jeopardize sound judgement in relation to policy/leadership.

I would also like to urge you to support Bill HB 5434 and go forward in counting the popular vote in future presidential elections. The voice of the majority should be represented in a vote that involves choosing the leader of our great country.

Please consider these bills with much thought and contemplation.

Best Regards,
Jennifer Roeder
