

I'm writing to let you know I support HB5434, the National Popular Vote Compact that would award the presidency to the candidate who receives the most votes nationwide. It gives me such hope to think that we might finally be able to make "one person, one vote" a reality in America. As a senior citizen, I've lived through more than one election where my vote didn't count because the electoral college over-rode it and I had to live with a president that I, and the majority of my fellow Americans, did not choose. I deeply hope that the time has come that this injustice can be change for my future and for the future of my children and grandchildren. Please do whatever you can to make this dream a reality.

Sincerely,

Victoria Seitz
