

I am writing in support of HB5434 "An Act Adopting the Interstate Compact to Elect the President of the United States by National Popular Vote". Twice in my lifetime has the US presidential election been won by the candidate who won the electoral college vote while receiving fewer overall votes. I understand the reasoning behind the electoral college; I do not support it. It is time for a system where the winner is the candidate who receives the most votes.

Please pass this bill.
