

Hello. I am writing in support of of HB5434, the national Popular Vote Compact that awards the presidency to the candidate who receives the most votes nationwide. The Compact would make one person, one vote a reality. Every vote should matter, and the president should be the candidate who gets the most votes. Thank you for your time and attention.

Sincerely,

Gustav D. Spohn

Hello, I'm writing to let you know that I support HB6575, An Act Concerning Disclosure of Presidential Candidates' Federal Tax Returns. Release of federal tax returns for all presidential candidates is important for fairness and transparency: we must know about a candidate's potential business conflicts. Furthermore, it is imperative for America's service men and women to know that, if they are called to defend American interests, those interests are truly American and not just the interests of the President and his family. Thank you for your time and attention.

Sincerely,

Gustav D. Spohn

Hello. I'm writing to oppose HB 5180. Providing drivers' licenses to undocumented immigrants is good for public safety and also for our state economy since it helps people who want to work get to their jobs. In addition, I believe it is crucial to allow undocumented immigrants to drive legally so they can support their families, which keeps the poverty rate down and strengthens families and communities.

Thank you for your time and attention.

Sincerely,

Gustav D. Spohn
