To our Legislators,
This Bill (HB 5591) appears to be one of those do-gooder items with hidden agenda. We already have enough laws on the books to allow those who feel unfairly paid to step up and approach and be heard.
I do not want this bill that "helps women" with a back door agenda.
Remember....health care that helps women also allows abortions.
This is the ugly back door agenda here as well.
Thank you for reading.
