Connecticut legislative testimony recorders,

Testimony on HB 5591

HB 5591, An Act Concerning Pay Equity in the Workforce, would require employers to provide equal pay to employees in the same workplace who do the same work. They are talking about women's pay being less than men's pay in the same workplace who do the same work.

However, we are individuals, not a collection. This is micro-management by government, which is distorting the free market. Pay unfairness should be done on a case-by-case basis. You would not be able to ask for everyone's pay and the specific work that they do.
