To whom it may concern:

I wanted to give my support for HB 5591 since women and men should be paid the same amount of money for the same job performed. If a lawyer is a woman and she represents her clients to the best of her ability just like her male counterpart, then she should always be paid the same amount of money for taking the same case and doing the same work. Discrimination against women in the workplace or in our society must not be allowed, tolerated or encouraged in any fashion. This bill must be passed because it is a necessity which is needed to protect women in the workplace in the 21st century and beyond in Connecticut.
