

Enough is enough!!!

HB # 6926 will increase my cost of doing business.... When costs go up – values go down. This proposal will force more business to flee Connecticut and lower residential property values making our fiscal problems worse, not better! This is not a Joke. I am already contemplating selling all my holdings and moving out of state. As a investor property selloff occurs Values will plummet.

“Connecticut punishes success and rewards failure.”

We (Connecticut Private Landlords) can't survive in a State giving away our tax dollars on non-essential services and program that benefit only a small percent of our over-all population; tough decisions must be made.

WE STRONGLY OPPOSE HB 6926 AND VIEW THIS AS AN ASSAULT ON HOUSING.
