

Senate Bill 957

8 March 2017

I fully support this bill.

East Windsor needs this development to help spur our growth in a controlled manner.

There are many benefits to this project.

It will help head off the migration of dollars to Mass.

It will provide many jobs locally.

It will be a plus to our existing local businesses.

It will probably attract new businesses in the immediate area.

It will provide steady tax dollars for the town in general.

It will add to the number of sewer users, that will help support our sewer plant.

MMCT has proven to be a good neighbor and will support other worthy entities in East Windsor.

Please move this forward without delay.
