Subject: Alternative railroad route

To Whom it May Concern,

I want to express my deep concerns over the proposed bypass in southeastern CT.

I support public transportation in all forms, but feel any available monies should be put into updating and improving the existing tracks.

The mouth of the CT River and the Old Lyme Historic District are two treasures that should not be compromised. The FRA has not been forthright in its dealings with the public and has ignored the interests of Southeast CT citizens.

Thank you for your consideration.

Sincerely,
James Bechtel
