3 "Section 1. (*Effective from passage*) (a) There is established a task force  
4 to study Connecticut's recycling and beverage container redemption  
5 programs. The task force shall: (1) Examine, review and analyze the  
6 beverage container redemption law in this state to assess its efficacy in  
7 achieving Connecticut's recycling goals and in promoting the use and  
8 reuse of materials in an economically and environmentally sustainable  
9 manner, including, but not limited to, the costs and benefits of such  
10 law to Connecticut's environment, consumers, retailers, deposit  
11 initiators, and municipalities; (2) evaluate the state of current recycling  
12 programs in Connecticut and the opportunities for improving their  
13 performance through the implementation of universal access to  
14 recycling and deployment of best practices in recycling in households,  
15 workplaces and public spaces, including an analysis of the incremental

16 costs and benefits of universal recycling access for the environment,  
17 consumers, recycling industries and municipalities; (3) assess the  
18 transition costs of moving from the state's beverage container deposit

22 methods of collecting container glass for recycling and reuse,  
23 recognizing the unique challenges posed by handling and recycling  
24 glass including integrating all glass containers into the universal  
25 recycling system or establishing a separate system for glass including a
