"AN ACT CONCERNING MUNICIPAL ELECTRIC UTILITY COOPERATIVES."

1. Strike everything after the enacting clause and substitute the following in lieu thereof:

"Section 1. Section 7-233c of the general statutes is repealed and the following is substituted in lieu thereof (Effective October 1, 2017):

(a) Any two or more municipal electric utilities may, by concurrent resolutions, duly adopted by the governing bodies of each of such municipal electric utilities, create and become members of a municipal electric energy cooperative under the name and style of "the .... municipal electric energy cooperative", with some identifying phrase inserted. The managing body of the municipal electric energy cooperative shall be a cooperative utility board which shall be charged with carrying out the corporate purposes and powers of the municipal
electric energy cooperative. The number of representatives to be appointed at any time for full terms of office [by the governing bodies of such municipal electric utilities] shall be such uniform numbers as may be mutually agreed upon in said resolutions which number shall be not less than two nor more than six for each member, provided one such representative shall be appointed by the legislative body of each municipality in which a member municipal electric utility operates, pursuant to this subsection. After the taking effect of the said resolutions of all such municipal electric utilities and after the filing of certified copies thereof pursuant to subsection (a) of section 7-233d, the agreed number of representatives shall be appointed to the cooperative utility board by the governing body of each municipal electric utility [. The] and the legislative body of the municipality in which each municipal electric utility operates, pursuant to this subsection. For representatives appointed by the governing body of each municipal electric utility, the qualification of such representatives, terms of office for the original representatives and their successors and compensation, if any, by the member pursuant to this section or by the municipal electric energy cooperative pursuant to section 7-233p, as amended by this act, shall be prescribed by each such governing body; provided, each representative shall be an official or employee of such municipal electric utility. For each representative appointed by the legislative body of each municipality in which a member municipal electric utility operates, the qualification of such representative, terms of office for the original representative and his or her successors and compensation, if any, by the legislative body or by the municipal electric energy cooperative pursuant to section 7-233p, as amended by this act, shall be prescribed by each such legislative body and any such compensation shall be approved by such legislative body, provided each such legislative body shall appoint a representative who is a residential or commercial ratepayer of the municipal electric utility that operates in the municipality of such legislative body and who does not hold other official positions in and is not employed by (1) the governing body of such member municipal electric utility, (2) the municipality in which the member municipal electric utility operates,
(3) the governing body of any other member municipal electric utility,
(4) the municipality in which any other member municipal electric
utility operates, or (5) the municipal electric energy cooperative. In
addition to paying such compensation as may be prescribed pursuant
to this section or section 7-233p, as amended by this act, a member
municipal electric utility or a legislative body, upon approval by such
legislative body, may reimburse its representatives for expenses for
travel, both within and without the state, incurred by them in
connection with services as a designated representative on such board.
Before such municipal electric energy cooperative can be validly and
legally formed each of the municipalities represented by a municipal
electric utility joining together to form the municipal electric energy
cooperative must, by proper proceedings duly adopted, consent and
agree to such formation of the municipal electric energy cooperative.

(b) After the creation of a municipal electric energy cooperative
under subsection (a) of this section, any other municipal electric utility
may become a member of the municipal electric energy cooperative if
(1) the municipal electric utility files with the municipal electric energy
cooperative (A) a resolution, duly adopted by its governing body,
requesting membership in such cooperative, and (B) a certified copy of
the proper proceedings, duly adopted by the municipality represented
by the municipal electric utility, consenting and agreeing to such
membership, and (2) after the municipal electric energy cooperative
receives such filing, the governing bodies of at least two-thirds of the
municipal electric utilities comprising the membership of the
municipal electric energy cooperative at the time of such filing duly
adopt a resolution approving membership of such municipal electric
utility in the municipal electric energy cooperative. After the filing of
certified copies of all such resolutions with the Secretary of the State
pursuant to subsection (b) of section 7-233d, the governing body of the
municipal electric utility being added to the municipal electric energy
cooperative and the municipality in which such municipal electric
utility operates shall appoint representatives to the cooperative utility
board of the municipal electric energy cooperative. The number of
such appointed representatives shall be the same as the number
mutually agreed upon by the other members of the municipal electric
energy cooperative pursuant to subsection (a) of this section. The
provisions of said subsection (a) concerning the qualification, compensation and terms of office of, and reimbursement of travel expenses for, representatives [of the existing members of the municipal cooperative] appointed by the existing member municipal electric utilities and the legislative bodies of the municipalities in which such member municipal electric utilities operate shall apply to representatives of such municipal electric utility.

(c) A municipal electric utility that is a member of a municipal electric energy cooperative may withdraw from the municipal electric energy cooperative if: (1) Such withdrawing municipal electric utility continues to fully perform all of its obligations under any contract it has with the municipal electric energy cooperative or provides sufficient funds in trust for the benefit of the municipal electric energy cooperative to satisfy such obligations, (2) the withdrawing municipal electric utility files with the municipal electric energy cooperative a resolution, duly adopted by its governing body, approving the withdrawal, and such resolution is filed with the Secretary of the State in the same manner as provided in subsection (c) of section 7-233d, and (3) the municipality [represented by the withdrawing municipal electric utility] in which the withdrawing municipal electric utility operates does not disapprove of such withdrawal, by vote of the municipality's legislative body, within thirty days after the adoption of such a resolution.

(d) (1) Upon appointment of its representatives by the [members of the municipal cooperative] member municipal electric utilities and legislative bodies of the municipalities in which such member municipal electric utilities operate, the cooperative utility board shall organize, select its chairman and vice-chairman from among said board and proceed to consider those matters which have been recommended to it by the several members of the municipal electric energy cooperative.
(2) The cooperative utility board may hold such meetings and public hearings as it deems desirable and the powers of the municipal electric energy cooperative shall be vested in the representatives thereof in office from time to time. The cooperative utility board shall hold any such meetings and public hearings in the state. The municipal electric energy cooperative shall post on its Internet web site and provide to participants notice of and the agenda for each meeting and public hearing, and any changes made thereto, not later than five days before such meeting or public hearing. Each participant shall post on its Internet web site and provide to the municipality in which it operates such notice, agenda and changes not later than four days before such meeting or public hearing. Each such municipality shall post on its Internet web site such notice, agenda and changes not later than three days before such meeting or public hearing.

(3) A majority of the entire authorized number of representatives of the municipal electric energy cooperative shall constitute a quorum at any meeting thereof. Action may be taken, motions voted and resolutions adopted by the municipal electric energy cooperative at any meeting of the cooperative utility board by vote of a majority of the representatives present, unless in any case the bylaws of a municipal electric energy cooperative or an amendment to such bylaws shall require a larger number for adoption or any representative of the cooperative utility board requests that the vote be based on megawatt-hour purchases. If such a request is made, [(1)] (A) each representative shall have a number of votes equal to the total number of megawatt-hours purchased from the municipal electric energy cooperative during the preceding completed calendar year by the [representative's] member municipal electric utility [from the municipal cooperative during the preceding completed calendar year] which appointed such representative or which operates in the municipality whose legislative body appointed such representative, provided, if the municipal electric energy cooperative includes a new member municipal electric utility which purchased part or all of its power and energy from a supplier or suppliers other than the
municipal electric energy cooperative during such year, each representative appointed by such new member municipal electric utility or the legislative body of the municipality in which such new member municipal electric utility operates shall have a number of votes equal to the total megawatt-hours purchased by such new member from such other suppliers during such year plus the total number of megawatt-hours purchased from the municipal electric energy cooperative during such year, and [(2) (B) any action, motion or resolution taken, voted or adopted by the municipal electric energy cooperative at such meeting shall be by a favorable vote of sixty-seven per cent or more of the total of such votes of the representatives who are present at the meeting and who vote, provided at least a majority of the members of the municipal electric energy cooperative approves such action, motion or resolution. Notwithstanding any provision of this subsection or of subsection (g) of this section to the contrary, a unanimous vote of all of the representatives of the municipal electric energy cooperative shall be required before said municipal electric energy cooperative can exercise the power of condemnation or eminent domain provided in this chapter.

(4) The municipal electric energy cooperative shall post on its Internet web site and provide to participants the minutes of such meeting or public hearing, including any actions taken, motions voted and resolutions adopted, not later than five days after such meeting or public hearing described in subdivision (2) of this subsection. Each participant shall post on its Internet web site and provide to the municipality in which it operates such minutes not later than six days after such meeting or public hearing. Each municipality shall post such minutes on its Internet web site not later than seven days after such meeting or public hearing.

(5) The cooperative utility board may appoint and employ a chief executive officer, a treasurer, a secretary, a general counsel and such officers, advisors, consultants and other agents and employees as it may deem necessary, and the cooperative utility board shall determine their qualifications, terms of office, duties and compensation.
(e) Organizational expenses incurred by a municipal electric energy cooperative shall be paid ratably by each member in the same proportion as the population or area of operation serviced by each such member bears to the total population or area of operation serviced by all members or by such other method as determined to be fair and equitable by the cooperative utility board. Such payments shall be made by each member whether or not that member utilizes the electric power or energy made available or furnished to such member.

(f) Each representative of a municipal electric energy cooperative shall hold office for the term for which he was appointed and until his successor has been appointed and has qualified. A representative of a municipal electric energy cooperative may be removed only by the cooperative utility board for inefficiency or neglect of duty or misconduct in office and after he shall have been given a copy of the charges against him and, not sooner than ten days thereafter, had opportunity in person or by counsel to be heard thereon by such governing body. A member municipal electric utility may remove one or more of [its] the representatives that it appointed with or without cause at any time. The legislative body of a municipality may remove the representative that it appointed with or without cause at any time.

(g) A municipal electric energy cooperative may adopt, on a prospective basis, methods of voting for all or specifically designated matters. Any such methods shall be specified in the bylaws of a municipal electric energy cooperative or in an amendment to such bylaws unanimously adopted by the members of the municipal electric energy cooperative. A municipal electric energy cooperative may distinguish the voting rights of its members based on whether a member is a full requirements customer or a partial requirements customer of the municipal electric energy cooperative or based on the term of the contractual obligations for power and transmission supply each member incurs with respect to the municipal electric energy cooperative, provided any such distinctions shall treat similarly situated members in a comparable and nondiscriminatory manner. For purposes of this subsection, "full requirements customer" means a
wholesale purchaser of electric power or transmission services whose
electric energy supplier is the sole source of long-term firm power, and
"partial requirements customer" means a wholesale purchaser of
electric power or transmission services that directly owns or operates
generating or transmission assets that are insufficient to carry all of
such purchaser's electric load and whose electric energy supplier is a
supplemental source of long-term firm power.

(h) A municipal electric energy cooperative shall cause a forensic
examination conducted by a certified forensic auditor which shall
include a review of the revenue and expenditures of a municipal
electric energy cooperative for the preceding five years. The auditor
shall submit (1) a report that includes an opinion regarding the
financial statements and a management letter, and (2) a report that
includes an opinion on conformance of the operating procedures of the
municipal electric energy cooperative with the provisions of chapter
101a and the bylaws of the municipal electric energy cooperative, and
any recommendations for any corrective actions needed to ensure such
conformance. The municipal electric energy cooperative shall post on
its Internet web site and provide to participants such forensic audit
report not later than seven days after such forensic audit report is
received by the municipal electric energy cooperative. Each participant
shall post on its Internet web site and provide to the municipality in
which it operates such forensic audit report not later than five days
after such forensic audit report is received from the municipal electric
energy cooperative. Each such municipality shall post on its Internet
web site such forensic audit report not later than five days after such
forensic audit report is received from the participant.

(i) A municipal electric energy cooperative shall annually provide
the following, in accordance with the provisions of section 11-4a, to the
joint standing committee of the General Assembly having cognizance
of matters relating to energy: (1) A list of the current members and
officers of the cooperative utility board described in subsection (d) of
this section; (2) a copy of the most recent annual report of the
municipal electric energy cooperative; (3) a copy of the most recent
audited financial statements, management letter and forensic audit
reports of the municipal electric energy cooperative that are required
under subsection (h) of this section; (4) a copy of any conflicts of
interest policy of the municipal electric energy cooperative; (5) a copy
of the municipal electric energy cooperative's most recently filed
Internal Revenue Service form 990, including all parts and schedules
that are required to be made available for public inspection under the
Internal Revenue Code of 1986, or any subsequent corresponding
internal revenue code of the United States, as amended from time to
time; (6) a copy of the bylaws of the municipal electric energy
cooperative; and (7) as to any employee of the municipal electric
energy cooperative, a report listing the position of each employee and
the amount of the salary, wages and fringe benefit expenses paid to
each such employee.

(j) If a municipal electric energy cooperative holds a strategic retreat
or similar activity, it shall hold such retreat or activity in the state. The
cooperative utility board shall approve, at a meeting, such retreat or
activity, including the location, the purpose, planned attendees, any
entertainment and any gifts of value. Such retreat or activity shall
include meetings to conduct business and the municipal electric
energy cooperative shall provide to the cooperative utility board, not
later than five days after such retreat or activity, an agenda, a list of
attendees and the meeting minutes. Such retreat or activity shall not
include any entertainment or gifts of value other than that approved
by the cooperative utility board.

Sec. 2. Section 7-233p of the general statutes is repealed and the
following is substituted in lieu thereof (Effective October 1, 2017):

If the members of a municipal electric energy cooperative and the
legislative bodies of the municipalities are not paying compensation to
[their] the representatives they each appointed pursuant to subsection
(a) of section 7-233c, as amended by this act, such municipal electric
energy cooperative may reimburse its representatives for necessary
expenses incurred in the discharge of their duties and pay such
reasonable, uniformly applicable compensation to such representatives for their service on the board of such municipal electric energy cooperative as provided in this section. The concurrent resolutions creating a municipal electric energy cooperative may provide that the representatives of the municipal electric energy cooperative may receive annual compensation for their services within limitations to be stated in such concurrent resolutions and in that event, each representative may receive from the municipal electric energy cooperative such compensation for his services as the municipal electric energy cooperative may determine within the limitations stated in such concurrent resolutions. Said provisions or limitations stated in any such resolutions may be amended by subsequent concurrent resolutions, but no reduction of any such limitation shall be effective as to any representative of the municipal electric energy cooperative then in office except upon the written consent of such representative.

This act shall take effect as follows and shall amend the following sections:
