

## Small Business Assistance Programs

By: John Rappa, Chief Analyst  
March 13, 2017 | 2017-R-0079

### Issue

Summarize state, federal, and Connecticut nonprofit programs that provide grants, loans, and tax breaks to small businesses (i.e., small business assistance programs), including programs that target women-, veteran-, and minority-owned businesses. This report updates [OLR Report 2015-R-0184](#).

### Summary

Most state, federal, and nonprofit business assistance programs serve both large and small businesses, although some, like Connecticut's Department of Economic and Community Development's (DECD) Small Business Express Program (Express) serve only small businesses.

Small business assistance programs use a variety of criteria, such as number of employees or annual revenue, to determine a business' eligibility. For example, DECD's Express is open only to businesses with 100 or fewer employees while the nonprofit Community Economic Development Fund's loans are generally open only to businesses with 50 or fewer employees.

The purposes of the business assistance programs vary. Some programs make loans for purchasing machinery and equipment while others subsidize the wages paid to recently unemployed workers, including veterans. Others provide investment capital to entrepreneurs starting new, high technology businesses.

This report summarizes business assistance programs operated by state, federal, and nonprofit agencies. It does not include property tax exemptions for constructing or renovating facilities, which are administered by municipalities. Attachment 1 summarizes the programs providing grants,

loans, and other types of financial assistance. It includes several business loan and loan guarantee programs administered by the quasi-public Connecticut Innovations (CI) that are active even though they are not mentioned on CI's site. Attachments 2 and 3, respectively, summarize state and federal tax incentive programs. In each attachment, we shaded the rows for those programs that target small businesses, including those owned by women, veterans, and minority group members.

Several regional and nonprofit development corporations administer federal and state funded small business assistance programs. Attachment 4 lists these entities and identifies the region they serve.

The number of business assistance programs and implementing agencies could make it hard for a small business owner with limited resources to find the programs that meet his or her needs. But several organizations can assist them with the search, including the following:

1. Connecticut Economic Resource Center: <https://www.cerc.com/>
2. DECD's Small Business Affairs Office:  
<http://www.ct.gov/eecd/cwp/view.asp?a=3931&Q=462650>
3. Small Business Administration (SBA):
