### Issue

You asked how much toll revenue neighboring states collect.

### Summary

The table below shows the toll revenue for seven northeastern states, based on the most recent data available on the internet. Toll revenue ranged from \$20.4 million in FY 16 (Rhode Island) to \$1.57 billion in calendar year 2016 (New Jersey).

The New York Thruway Authority and New Jersey Turnpike Authority each collect tolls on their respective highways. In addition, the Port Authority of New York and New Jersey collects tolls on its bridges and tunnels connecting those two states (the George Washington, Goethals, and Bayonne bridges, the Outerbridge Crossing, and the Lincoln and Holland tunnels). In calendar year 2016, the Port Authority collected \$1.86 billion in toll revenue.
