

## Comparison of Beer Permits

By: Duke Chen, Principal Analyst  
December 18, 2017 | 2017-R-0349

### Issue

Provide a comparison of the different beer permits in the state.

### Summary

By law, an alcohol permit is required to brew and sell beer in Connecticut. The state currently issues five such alcohol permits: manufacturer permit, manufacturer permit for beer, manufacturer permit for brewpub, manufacturer permit for beer and brewpub, and manufacturer permit for a farm brewery.

A manufacturer permit costs \$1,850 and allows the permittee to, among other things, produce all types of alcohol (e.g., liquor, wine, and beer). The other four permits allow permittees to brew beer but not other types of alcohol. The permit fees for these four permits range from \$300 to \$1,500 annually. The Department of Consumer Protection is the agency responsible for issuing permits. Table 1 provides a comparison of the permits.

**Table 1: Comparison of Different Beer Permits**

<b>Authorized Activity</b>	<b>Manufacturer Permit (<a href="#">CGS § 30-16(a)</a>)</b>	<b>Manufacturer Permit for Beer (<a href="#">CGS § 30-16(b)</a>)</b>	<b>Manufacturer Permit for Brewpub (<a href="#">CGS § 30-16(g) as amended by PA 17-160</a>)</b>	<b>Manufacturer Permit for Beer and Brewpub (<a href="#">CGS § 30-16(h) as amended by PA 17-160</a>)</b>	<b>Manufacturer Permit for a Farm Brewery (<a href="#">CGS § 30-16(f) as amended by PA 17-160</a>)</b>
Annual Permit Fee	\$1,850	\$1,000	\$300	\$1,500	\$300
