

To the Connecticut legislature  
Re: SB560, SB751, HB6058, HB6045, HB5458

Please strongly considering voting NO on these proposals.  
For us living on the border towns, it will bring an increasing volume of cars and commercial vehicles on our local roads as traffic will look for ways to bypass payment of tolls. This will make our local roads less safe for us and our children, while bringing more wear and tear and thereby expense to maintain and repair our already deteriorating road conditions.
